#### SHIPPING NEWS OF THE WORL FRO

# SHIP OWNERS FIGHT **AGENCY METHODS**

Insist United States Ought to Consign Large Craft to Americans.

The Shipping Board's dependence upon foreigners as agents abroad for its passenger and freight services has been criticized sharply by the American Steamship Owners Association. A communication to Chairman A. D. Lasker of the board from the executive committee, made public yesterday, declared that in consideration of the permanent future prosperity of the American merchant marine "a policy of consigning to

future prosperity of the American mer-chant marine "a policy of consigning to foreign houses Government owned and operated ships at terminal ports of reg-ular services is an unwise policy."

Pointed reference is made to the pres-sent astuation at United Kingdom ports, where Runcimans, Ltd., a British house, is agent for the Shipping Board, and at Bremen, where the agent for the United States Lines of American mail and pas-senger steamers is the North German Lloyd.

Steamship Owners Association against dependence upon foreign agencies by regular American steamship services will be followed up very earnestly both with the Shipping Board and the na-tional lawmakers.

#### 'WHEATON' PROTEST IS DENIED BY LASKER

Conference Will Be Consulted on Future Allocations.

on Future Allocations.

A letter from A. D. Lasker, chairman of the Shipping Board, received yesterdent and general manager of the American Steamship Owners Association, in answer to his protest against allocation of the refrigerator steamer Wheaton to A. E. Mittnacht for service in the intercoastal trade, said that the board's policy of protection for private owners in the trade had not been changed.

The board, had no other alternative, said Mr. Lasker, than to lay the steamer up, which would mean deterioration of her refrigerator plant, thereby costing thousands of dollars of the publis funds to 'recondition her. Every pressure brought to bear during the last few months to place additional freight steamers in the intercoastal trade had been resisted, he added.

It became known yesterday that the Intercoastal Conference had protested last October the allocation to Mr. Mittnacht, identified with the Elder Steel Steamship Company, which went into receivers' hands, had been favored rather than the Nawson Lines, the Shipping Board operator in the intercoastal trade and a member of the conference. Mr. Lasker then replied that the Neponset, also of the refrigerator type. Surprise was expressed that Mr. Mittnacht, identified with the Elder Steel Steamship Company, which went into receivers' hands, had been favored rather than the Nawson Lines, the Shipping Board operator in the intercoastal trade and a member of the conference. Mr. Lasker then replied that the Neponset was allocated to meet a national emergency and that further allocations would not be made without notice to the Intercoastal conference.

mittee Working on Idea.

The ship owners say that they recognize that in the present development of the country's overseas shipping American houses are not to be found at all the ports of the world, and that the use of foreign agencies may be necessary here and here, especially for casual or tramp steamers, But it is insisted that as Government institution such as the Shipping Board, operating the George Washington, America and "President" class of steamers, all vital elements of the mational raval reserve, outh not to compley British shipping corporations as exclusive agents at important terminal ports.
